

ALI TURSUCULAR

FRONT END WEB DEVELOPER

alitursucular@gmail.com +44 7367 854707

Career summary

I am an accomplished Front End Web Developer and an engineer for 6+ years. I am responsible, focused, open-minded and motivated person with a great grasp of learning and team working skills. I possess an analytical mindset; enjoy to observe, research, think and solve problems. I can take care of all the steps from the conception of an idea to the actual finished product. I am proud to have happy customers in my past.

Work experience

In my latest contract, I joined the Forward Partners team to kick-start their brand new website. During my work, I dealt with Webpack, Docker, GitHub, Sourcetree, Jira, Figma, Foundation 6, HTML5, SASS, CSS3, and JavaScript. My highly detailed [portfolio & blog website](#) and below experiences states out clear understanding and usage skills of above-mentioned technologies.
