Career summary

I am an accomplished Front End Web Developer and an engineer for 6+ years. I am responsible, focused, open-minded and motivated person with a great grasp of learning and team working skills. I possess an analytical mindset; enjoy to observe, research, think and solve problems. I can take care of all the steps from the conception of an idea to the actual finished product. I am proud to have happy customers in my past.

Work experience

In my latest contract, I joined Macmillan Cancer Support to work on Mighty Hikes and Free Wills projects. Mighty Hikes is a high profile event that has grown to be a £5million product in the last 3 years. The purpose of the project was to create a dedicated site and expand the number of events to enable the revenue to grow in excess of £10million per anum within the next 2 years. The site has been a success thus far and is well on track to reaching its goals.
